She may be waiting, just anticipating things she may never possess

While she's without them try a little tenderness

It's not just sentimental, she has her grief and care

Dm                                    A                    Dm Dm7    G7    G7+  
And a word that's soft and gentle makes it easier    to bear

C                    Am    Dm                    G7    C                    Gm6            A  
You won't regret it, women don't forget it, love is their whole happiness

It's all so easy, try a little tenderness
